RESPECT TRADITION

OUR MISSION

Our unique culture and product designs are inspired by the rich heritage of the Brigade de cuisine.

Every design we develop, everything we make, every aspect of our business has been founded upon respecting these long standing traditions. Whilst we believe in focusing on the past we have the desire and vision to take the Chefs Apparel industry into the future and build the best products for our industry based on this past.

Our values reflect those of a business started by family and we believe in forging relationships through mutual respect and co-existence, amongst ourselves and within the communities and environments in which we work.

The approach we take towards product design demonstrates a bias for simplicity, function and utility. Using the best possible ingredients in our products to set us apart is vital to our existence.

We want our customers to know they can absolutely and unconditionally trust Chefs Brigade and the products we offer.

We share a passion in our apparel and to make a difference in our world.

Our chefs coats are named after some of the worlds best hotels, restaurants and even bars. This is our way to pay homage to some of the worlds top institutions and Chefs therein. Ultimately our little bit to show respect and tradition to the history crafted out by the Brigade de cuisine.
